Project Demo Planning

Date	1 October 2026
Team ID	6ab63662000bf9bb96385cb4
Project Name	Auto Ticket Classification using Flow Designer
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Present the problem of manual ticket classification, statistics on misrouting, and impact on SLAs.	3	Adchaya Balaji S
2	Solution Overview	Explain the proposed solution: PI + Flow Designer architecture, key components, and data flow.	3	Jeeva V
3	Live Demo - Ticket Creation	Create a new incident on Service Portal; show auto-classification happening in real-time.	4	Arul K
4	Live Demo - Agent View	Show Agent Workspace with confidence score, auto-assigned fields, and override functionality.	3	Adchaya Balaji S
5	Live Demo - Low Confidence	Demo a vague ticket that gets flagged for manual review; show triage queue.	2	Arshad K M S
6	Dashboard & Analytics	Walk through the PA dashboard showing accuracy trends, volume metrics, and KPIs.	3	Makesh C
7	Q&A Session	Address questions from evaluators and faculty.	2	All Members

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Use statistics: 22% misrouting, 3-5 min/ticket, SLA breach impact
2	Solution Overview	Show architecture diagram, explain PI + Flow Designer integration

3	Live Feature Demonstration	Real-time demo on ServiceNow instance: create ticket, watch auto-classify
4	Q&A Session	All team members ready to answer domain-specific questions
